Oilseeds and Products

Quarterly Update

2008

Approved by:

Holly Higgins
U.S. Embassy

Prepared by:

Amit Aradhey

Report Highlights:

Posts has revised MY 2007/08 rapeseed and peanut production downward from earlier forecasts at 5.5 million tons and 6.6 million tons, respectively, due to a decline in winter season planted area and lower than anticipated yields. Total oilseed production (soybean, rapeseed/mustard, peanut, cottonseed, sunflower and copra) is estimated at 33 million tons, yielding 6.8 million tons of oil and 15.3 million tons of meal. Vegetable oil imports are estimated at 5.2 million tons including 3.4 million tons of palm oil and 1.3 million tons of soybean oil. Meal exports are estimated at 5.3 million tons, mostly soybean meal, and some rapeseed meal.

Includes PSD Changes: Yes
Includes Trade Matrix: No
Quarterly Report

[IN]

Rapeseed area and production lower

As per the latest Ministry of Agriculture planting reports, *rabi* (winter) season oilseed plantings, which include mostly rapeseed, peanut, and sunflower, were down 9 percent from last year's level at 8.9 million hectares, with most of the decline confined to rapeseed due to unfavorable planting conditions. Poor soil moisture conditions due to early withdrawal of the monsoon and high temperatures at planting time in major growing states were factors responsible for the reduction in planted area. With a likely lower yield due to lack of winter rains and extremely cold weather conditions in major growing states of Rajasthan, Uttar Pradesh, and Haryana, MY 2007/08 rapeseed production is revised lower to 5.5 million tons from last year's 5.8 million tons.

Post estimates MY 2007/08 peanut production at 6.6 million tons compared with 5.4 million tons last year, due to a 12 percent increase in acreage at 6.6 million hectares. However, this is somewhat lower than Post's earlier estimate of 7 million tons. Post has revised MY 2007/08 soybean production marginally upward to 9.3 million tons from our earlier forecast of 9.2 million tons.

Edible oil production likely to decline

Due to the downward revision in the production of rapeseed and peanut, total edible oil production (soybean, peanut, rapeseed/mustard, sunflower, cottonseed and copra) in MY 2007/08 is now estimated to decline to 6.8 million tons. Edible oil consumption for MY 2007/08 is forecast at 12 million tons, with imports forecast at 5.2 million tons. Post estimates MY 2007/08 soy oil imports to decline to 1.3 million tons compared to 1.4 million tons last year.

Total edible oil imports during the first four months of MY 2007/08 increased by one percent over last year. Imports of palm oil registered an increase of 22 percent against the corresponding period last year, while soybean oil imports witnessed a decline of 48 percent. High international prices for soybean oil and larger domestic supplies are factors limiting imports. The price difference between the landed cost of crude palm oil (CPO) and crude degummed soybean oil (CDSBO) at Indian ports is now over \$190/ton (CIF), favoring palm oil imports.

Table 1: Edible Oil Imports (Oct 2007-Jan 2008) (Metric ton)

Vegetable Oil	Oct'07	Nov'07	Dec'07	Jan'08	Oct'07-Jan'08	Oct '06-Jan'07	% Change
RBD palmolein	12,640	30,014	12,019	5,999	60,672	29,988	102.32

Tariff value for edible oils remains unchanged ...

Despite a significant increase in the imported price of various vegetable oils, the government has kept the reference price of edible oil frozen since September 15, 2006, in order to control domestic prices.

Table 2: Tariff values for edible oils

Chapter Heading/Subheading	Oil Type	Tariff value (US \$ per ton)
1511 10 00	Crude Palm Oil	447
1511 90 10	RBD Palm Oil	476
1511 90 90	Others – Palm Oil	462
1511 10 00	Crude Palmolein	481
1511 90 20	RBD Palmolein	484
1511 90 90	Others – Palmolein	483
1507 10 00	Crude Soybean Oil	580

... Import duty lowered

As a further step to rein in the domestic price of vegetable oils, the import tariffs on various edible oils were lowered effective July 23, 2007. The current import duty structure on various edible oils is shown in Table 2.

Table 3: Import duty structure

Vegetable Oil	Basic duty Prior to 07.23.07	Basic duty Effective 07.23.07	Basic duty Effective 07.25.07	Applied duty Effective 07.25.07
Soybean Crude/Refined	45%	40%	40%	40%
Crude Palm Oil	50%	40%	45%	46.5%
RBD Palmolein	57.5%	52.5%	52.5%	54.08%
Crude Sunflower Oil	50%	40%	40%	41.2%
Refined Sunflower Oil	60%	40%	50%	51.5%

Source: Solvent Extractors' Association of India

Under the South Asia Free Trade Agreement (SAFTA), the government lowered the import duty on refined edible oil from both Pakistan and Sri Lanka to 20 percent from 52.5 percent. Similarly for imports from other SAFTA nations, the import duty on refined edible oils was reduced to zero from 26.25 percent. Import duties on crude palm oil from Pakistan and Sri Lanka were reduced to 20 per cent from the earlier 50 percent and from other SAFTA countries to zero from 25 percent. However, SAFTA countries are not major suppliers of vegetable oils to India.

Oilmeal exports

Post forecasts total oil meal exports in MY 2007/08 at 5.3 million tons from a total production at 15.3 million tons. Meal exports for the first four months of MY 2007/08 were 2.4 million tons, eight percent above the corresponding period last year, reflecting increased demand for Indian soybean meal in the world market. MY 2007/08 soybean meal exports are projected at 4.4 million tons, compared with 3.4 million tons in MY 2006/07. Post estimates peanut meal export for MY 2007/08 at 120,000 metric tons. Rapeseed meal exports are likely to

decline marginally to 800,000 MT as against 910,000 MT last year owing to lower crop production this year.

Table 4: Oil meal Exports (Oct 07 – Jan 08) (Metric ton)

Month	Soybean	Rapeseed	Peanut	Rice Bran	Sunflower	Castor seed	Total
